£3.99 at [www.jannauk.co.uk](http://www.jannauk.co.uk) with free UK shipping on orders over £30

### INGREDIENTS

Aqua (Purified Water), Butylene Glycol, Glycerin, Erythritol, Homarine HCl, PEG-40 Hydrogenated Castor Oil, Hyaluronic Acid, Panthenol, Hibiscus Esculentus Fruit Extract, Natto Gum Extract, Xanthan Gum, Dipotassium Glycyrrhizate, Collagen, Mannitol, Sodium Gluconate, Citric Acid, Sodium Citrate, Waltheria Indica Leaf Extract, Dextrin, Ferulic Acid, Chondrus Crispus Extract, Phenoxyethanol, 4'-Hydroxyacetophenone, 1,2-Hexanediol, Fragrance (Parfum)

### HYALURONIC ACID

Hyaluronic acid is a glycosaminoglycan, a fancy name for a vital natural substance that's a youth-supporting part of skin. As the chief glycosaminoglycan in skin, hyaluronic acid works to keep every aspect of skin stable, safeguarded, and constantly renewed. It also has the stunning capacity to attract and hold vast amounts of moisture. Hyaluronic acid's moisture-binding characteristic is exceptionally important when it comes to skin aging. One of the qualities of youthful skin is its ability to hold water and retain a balanced amount of moisture. As we age, our skin loses the ability to maintain this vital, plumping moisture as well as it once did. Hyaluronic acid can enhance moisture content beyond comparison with anything else, and at the same time revitalise skin's outer layers so they look and feel softer, smoother, and, especially, radiantly hydrated!. That's how it instantly improves the appearance of fine lines and wrinkles.

### NATTO GUM EXTRACT

Natto Gum Extract is a type of collagen extracted from fermented soybeans and has incredible skin benefits when applied topically. What it does is that it diminishes the appearance of fine lines and wrinkles, brightens skin while evening skin tone but most importantly it carries moisture and nutrients as it penetrates deep into the skin. The naturally occurring enzymes, vitamins and amino acids from Natto Gum Extract and their benefits are:

**Gamma Polyglutamic Acid (PGA)** an amino acid that delivers intense hydration. PGA is a real breakthrough in skincare science. It's ten times more hydrating than hyaluronic acid and far more elastic than collagen.

**Lecithin:** A skin softening, conditioning and smoothing agent.

**Vitamin E** a powerful antioxidant and helps to prevent skin damage from free radicals, keeping your skin looking bright, young and healthy.

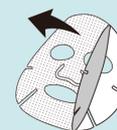

**Vitamin K2** has shown in studies to help visibly prevent fine lines.

### HIBISCUS ESCULENTUS FRUIT (OKRA) EXTRACT

Contains polysaccharides and protein components which are responsible for the skin's natural ability to hydrate and retain water. They promote hyaluronic acid within the dermal layer and are critical for skin repair and renewal in the anti-ageing process.

### DIRECTIONS FOR USE

1. Take the mask from packaging, unfold carefully and remove its white protective layer.

2. Apply the mask onto face avoiding lip and eye areas.

3. Adjust and press lightly to ensure optimal adhesion to all areas.

4. Remove mask after 20 minutes and pat the remaining essence into skin

Caring, nourishing and translucent In the cosmetics sector, TENCEL® scores in facial masks thanks to its outstanding absorption and transportation properties and the need-based release of caring lotions for perfectly pampered skin. TENCEL® - a fiber which was specially developed for use in face masks - provides transparent non-wovens which pamper the user's skin with their silky soft surface. The TENCEL® fiber satisfies the EU guidelines for cosmetics and has been awarded numerous ecolabels for its environmental friendliness.
